

The information in this document will help you understand the prescription drug benefits offered under this plan and allow you to compare these benefits to those offered by other plans.

2. Any drug, medicine or medication that is labeled either "caution-limited by federal law to investigational use" or "experimental or investigational"

corresponding step-therapy drugs.

Limits prescribing of certain high-cost or high-risk drugs to certain prescribers who specialize in treating the associated disease states.

If we have your complete information for review in our system, the prior-authorization approval may be issued automatically at the pharmacy.

When the information we have for you does not meet approval criteria, your pharmacy may notify your doctor of the rejection and PA requirement, in which case your doctor may choose

**Search Tip:**

This is a large document, but you can search quickly and easily by clicking on the binocular icon on your toolbar or using the CTRL+F search function from your keyboard. It will then display a search box for you to type in the name of the drug you want to locate. If you do not know the correct spelling, you can start your search by entering just the first few letters of the name.
